

Student Organization

Programming Spaces, Contact Info and Capacities

Below you will find the most commonly used campus programming spaces for all types of events. Be sure to check the capacities and also confirm that the facility is approved for your type of event. For example, classrooms cannot be used for concerts or loud events that may conflict with classes or programs in adjacent rooms. Some locations have food restrictions while others are open to any food service as long as it is approved by Environment, Health & Safety [EH&S]. Be sure to obtain written confirmation for any reservation *BEFORE* 'TAP'ing or publicizing your event.

Campus Location	Contact Information	Facility	Capacity
